

March 2023

Dear Valued Nestlé Health Science Customer:

RE: Nestlé Health Science Supply Update - INSTITUTION

At Nestlé Health Science, we are committed to keeping you informed of issues related to the supply of our medical nutrition products. The chart below is an update of Out of Stock (OOS) products and when they are expected back in stock.

Some suggested alternate products are listed below for consideration by the healthcare professional team to support clinical decision making. The formulas and formats suggested are provided based on general aspects of nutritional similarity and product availability, however the decision to recommend an individual formula for a patient must be made on a case-by-case basis considering the available product, patient need, and the healthcare professional team's clinical judgment.

Out-of-Stock Product Description	Product Code	Each UPC	SCC	Expected Back in stock date (at Nestlé warehouse)	Suggested Alternates	NOTES
